

Indicative action plan

Applicants do not have to indicate a specific starting date for the implementation of the action but simply indicate "month 1", "month 2", etc. maximum 6 months.

It is recommended to base the estimated duration of each activity and of the action as a whole on the most likely duration and not on the shortest possible duration, taking into account all factors that may affect the implementation schedule.

The activities foreseen in the Action Plan must correspond to those described in detail in the Budget. The implementing organisation must be either the applicant or one of its partners. The action plan for implementation must be sufficiently detailed to give an overview of the preparation and implementation of each activity.

The Action Plan should be drafted in accordance with the following model:
